

DIRECTIONS TO AKF REPORTERS  
436 Boulevard of the Allies  
Pittsburgh, PA 15219  
412.261.2323

**FROM POINTS WEST OF PITTSBURGH (i.e. AIRPORT):**

- . Takes about 30 minutes from Airport.
- . Follow signs to Pittsburgh (a straight shot the whole way), which is commonly called the Parkway West (it's Route 279 when it gets close to Pittsburgh).
- . About two miles prior to town (at Greentree exit area), you'll proceed down a long hill which leads into the Fort Pitt Tunnels. Before you enter the tunnels at bottom of hill, get into the left lane.
- . As you exit the tunnels, you'll be on the Fort Pitt Bridge, and stay in the center lane (the same lane you were in as you were going through the tunnels).
- . On other side of bridge, exit onto Blvd. of the Allies.
- . Counting the light at the end of that exit ramp, proceed 5 lights. The 4th light is Smithfield Street. The 5th light is Cherry Way (looks like an alley). Proceed through that light, and our building is the last building on right before you get to the next light (which is Grant Street). There is a large red AKF sign above our first floor windows. On the far side of our building, and before you get to the light at Grant Street, there is an alley that wraps around our building. Turn Right onto that alley, and follow it around to the back of our building, where there is indoor parking inside our building and also another open-air parking lot in that rear alley across the street.

**FROM POINTS NORTH OF PITTSBURGH (i.e. ERIE, OHIO, I-79 FROM NORTH):**

- . From I-79, traveling north to south, about one mile past the Wexford Exit bear left onto I-279 South (Exit 72) towards Pittsburgh.
- . Follow I-279 South about 10 miles which takes you onto the Ft. Duquesne Bridge (you'll see PNC Park on the left and Heinz Field on the right).
- . Veer left onto the Ft. Duquesne Bridge, and follow any sign that says "Monroeville." Mid-way across the bridge your two lanes will meet with two lanes on your right, at which point get into the 2nd from the right lane and still following the "Monroeville" signs.
- . As you exit the bridge, follow the sign overhead in your left lane "Exit 6-A, Downtown," then bear left "Downtown Pittsburgh - Left Lane Only." Stay in Left lane for next 4 lights.
- . Couple hundred yards, two lanes will widen into three lanes. Stay in the far Left lane.
- . First light you come to is Stanwix Street. Stay in the Left lane and continue straight.
- . Next light you come to is Market Street. Stay in the Left lane and continue straight.
- . Next light is Wood Street. Stay in the Left lane and continue

straight/bear slightly left.

- . At the next light, turn Left onto Smithfield Street (you'll see the Smithfield Bridge on your right at that light).
- . After turning left onto Smithfield Street, there's an immediate intersection with a light. Proceed straight through that light on Smithfield Street to the next light, which is the Blvd. of the Allies.
- . Turn right onto Blvd. of the Allies and stay in right lane. Next light is Cherry Way (looks like an alley). Proceed through that light, and our building is the last building on right before you get to the next light (which is Grant Street). There is a large red AKF sign above our first floor windows. On the far side of our building, and before you get to the light at Grant Street, there is an alley that wraps around our building. Turn Right onto that alley, and follow it around to the back of our building, where there is indoor parking inside our building and also another open-air parking lot in that rear alley across the street.

**FROM POINTS EAST OF PITTSBURGH (i.e. MONROEVILLE and PA TURNPIKE FROM EAST):**

- . From the PA Turnpike, take the Pittsburgh Exit at Monroeville (Exit 6), and follow signs for Route 376 West (it's called the Parkway East since it's east of town) towards Pittsburgh.
- . Follow the Parkway through Squirrel Hill Tunnels.
- . About 4 miles past Squirrel Hill Tunnels, exit onto Stanwix Street. At end of exit ramp you automatically are on Stanwix Street at that light. Proceed through that light on Stanwix Street to the next light, which is the Blvd. of the Allies. Turn right onto Blvd. of the Allies. Proceed through 4 stop lights. The 3rd light is Smithfield Street. The 4th light is Cherry Way (looks like an alley). Proceed through that light, and our building is the last building on right before you get to the next light (which is Grant Street). There is a large red AKF sign above our first floor windows. On the far side of our building, and before you get to the light at Grant Street, there is an alley that wraps around our building. Turn Right onto that alley, and follow it around to the back of our building, where there is indoor parking inside our building and also another open-air parking lot in that rear alley across the street.
